

# Hotel

Reference

Hotel Orania

[www.orania.berlin.de](http://www.orania.berlin.de)

Location

Berlin

Year

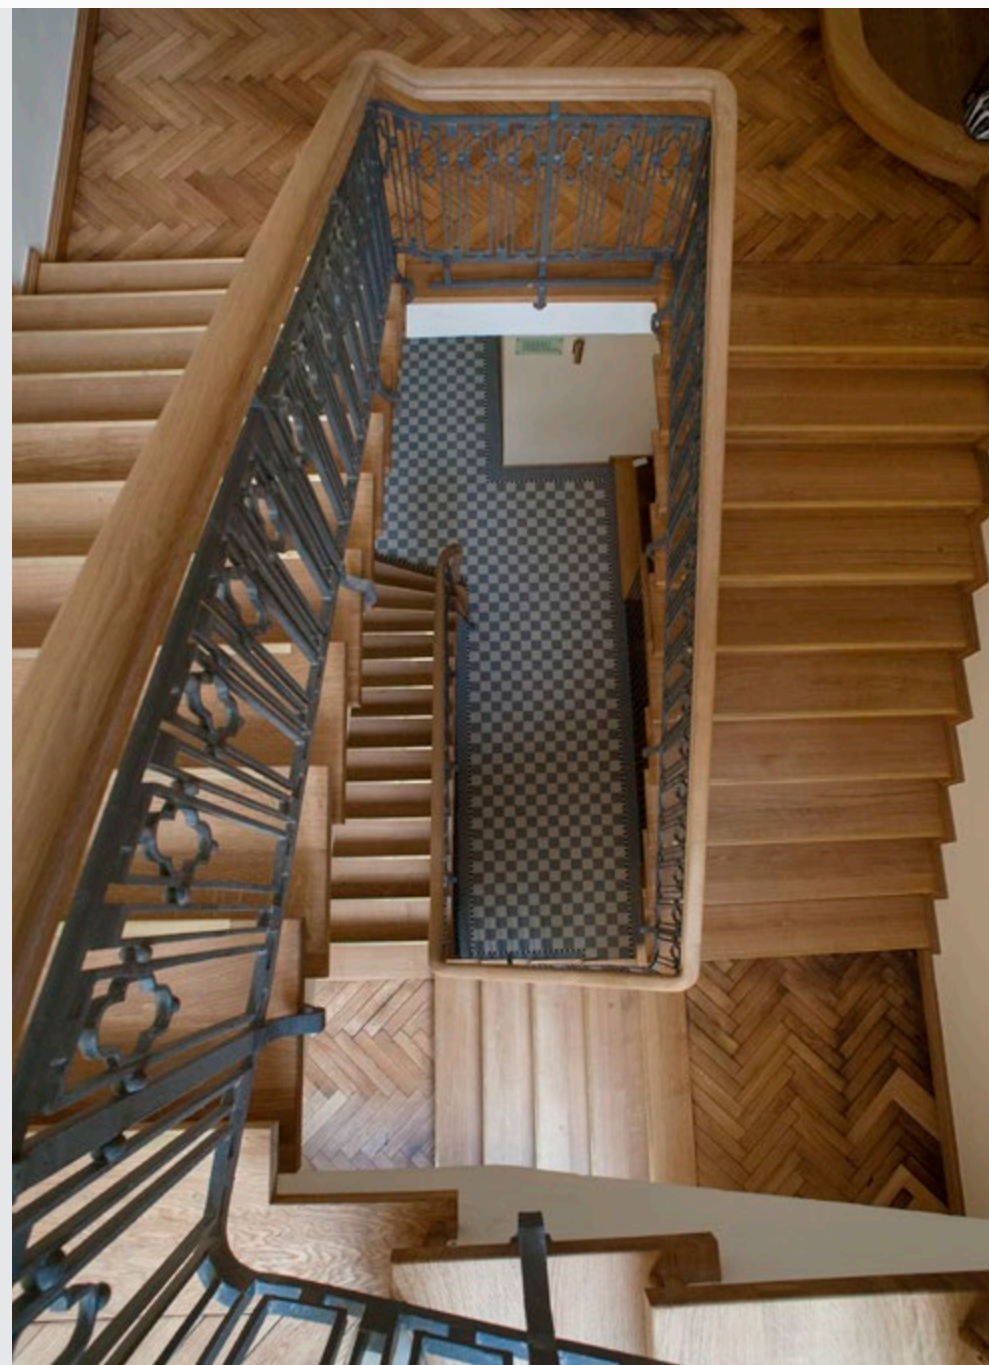

2017

Project type  
**Complete  
renovation**

The building was renovated and converted into a luxury hotel. The entire wall surface - in all the bathrooms - was fitted with BA 6 mm. The boards were bonded together with wedi 610. Supporting structures for sinks were built with the use of BA 50 mm.

### Requirements

- Watertightness
- Individually customisable
- Quick installation
- Efficient logistics service

### Brief description

The building is known as „Kaufhaus Brenninkmeyer“ because it was part of the premises of the textile merchant of the same name from 1956 to 1976. The Brenninkmeyer family is backed by the company C & A. The investors made it their goal to wake the building from its deep sleep and convert it into a hotel. According to the operator, this resulted in the „smallest luxury hotel in the world“. Gutting started at the beginning of 2015. The hotel opened on 21/08/2017.

Products used

## Base products

- wedi building board 6 mm
- wedi building board 50 mm
- wedi 610 adhesive sealant
- Wedi joint reinforcement tape

Products used
