

# Rennovation of staff restrooms

Reference

Modernisation

Location

Emsdetten, Germany

Year

2020

### Project type

As part of modernisation measures of the social wing of an industrial company in Emsdetten, employee restrooms were updated to the latest standards.

## Requirements

The aim was to refurbish restrooms within the shortest time possible.

## Brief description

Restrooms were to be clad with large-format wall panels to keep joints to the very minimum and thus further protect against bacteria, mould and fungi development.
