Requirements

Sustainable and exclusive wellness area, in keeping with the overall orientation of the resort. Straightforward and simple design. High-quality spa facilities comprising a steam bath, snow cabin, shower area and a heated bench. Fast execution

Brief description

The Mosel Village Resort is a former winery that has been transformed into a true oasis of relaxation. Guests of the Mosel Village Resort can expect a unique stay focused on peace, relaxation and indulgence. In addition to luxuriously equipped apartments and the hotel's restaurant and vineyard, the new spa area forms the heart of the resort.
