

Tubs out, showers in – in 48 hours: This is how partial bathroom refurbishment

Photos to download

More and more people want a modern flush-to-floor shower. But the thought of renovating the entire bathroom can feel overwhelming.

A quick and uncomplicated possibility is a partial renovation with wedi Fundo shower elements.

The "transformation" of the bathtub into a shower is one of the most requested refurbishment measures. Many bathrooms still have tubs that are 20 years old or older. Fortunately, wedi systems make it easy to replace them with a modern shower solution. The size of the shower is ideally chosen to cover the areas of the bathtub.

Tubs out, showers in – in 48 hours: This is how partial bathroom refurbishment

If everything runs optimally, a partial bathroom refurbishment with wedi solutions is completed within 48 hours. After the bathtub is removed, XPS building boards are used to level out any unevenness in the walls. Then the wedi Fundo shower element is installed and sealed. The final step is designing the Surface. More information: <https://www.wedi.net/Competencies/Theme world/Partial renovation shower>
